

ALCIUS HAS THE CLIMATE CONTROL PARTS YOU NEED, WHEN YOU NEED THEM

JAS Oceania will be transitioning to the new Alcius packaging over the coming months.

You can feel confident in the same high quality products, with the benefit of updated packaging design and brand marketing support.

ALCIUS
COMPLETE CLIMATE CONTROL

ALCIUS KEEPS YOUR BUSINESS UNDER CONTROL

Alcius is a comprehensive range of automotive cooling and climate control components specifically designed to meet the needs of Australian workshops.

Our customer service team in over 950 global locations ensures you get the right advice and parts when you need them, so you can get on with servicing your customers.

Alcius products are designed to go the distance with the highest quality assurance standards backed by an industry leading 24 month extended warranty*.

With Alcius you're in complete control knowing we'll keep your business moving.

°COMPRESSORS

From 12v to 24v, scroll design to variable displacement technology, Alcius has the compressor range under control. All leading OE manufactured brands including Denso, Delphi, Sanden, Valeo, Zexel, Unicla, Behr Hella are available and supported by the Alcius range of quality aftermarket replacement compressors.

°CONDENSERS

Australia's demanding conditions insist on the fitment of quality manufactured condensers. The Alcius range of condensers are designed and manufactured by global leading condenser factories and supported by OE manufactured ranges such as Denso, Sanden, Delphi & Hella. Combined with a wide range of universal condensers, dedicated Heavy Duty and Agricultural applications, your condenser needs are under control.

°EVAPORATORS

You will find a comprehensive range of evaporators and replacement coils covering the Australian car park applications, as well as Heavy Duty, Agricultural, Universal evaporator coils, Underdash evaporator assy's and Heater assy's. Alcius can supply any evaporator need with either the quality aftermarket range or OE manufacture Denso and Delphi brands.

° FANS

See our comprehensive range of direct fit replacement radiator and condenser cooling fans, sourced from industry leading aftermarket manufacturers and OE manufacturers. This range is supported with a wide selection of universal cooling fans, replacement electric motors and the widest range of direct fit and universal HVAC blower assy's.

° HOSE & FITTINGS

Alcius has an extensive range of Aluminium Barb and Beadlock fittings, Steel Beadlock and Reduced Beadlock fittings to suit any hose design needs. Ranging both ATCO manufactured and Alcius quality aftermarket ranges, as well as Air-O-Crimp and Vulkan Lokring hose clip design variations, any hose repair to any vehicle type is covered within the Alcius hose fitting range.

° HEAVY DUTY AC UNITS

Australian conditions demand tough AC systems. Alcius Red Dot and Sigma heavy duty AC range provides an AC solution for all Mining, Agricultural and Heavy Duty on and off-road vehicles. Supported by an expanding spare parts range for heavy duty applications, your heavy-duty needs are covered by a heavy-duty program.

° O-RINGS, SEALS & MISCELLANEOUS PARTS

Alcius understands that not all repairs are major, so a comprehensive range of consumable and replacement parts are stocked to assist with the smaller repair requirements. From universal and direct replacement thermostats, pressure switches and idler pulleys to a wide range of O'ring and sealing washers, everything you need to stay in control of your repair requirements.

° OILS, DYES & FLUSH

Tracerline, Leakfinder, StayBrite and Uview are just a few of the quality leak detection brands stocked to assist with finding and repairing refrigerant leaks. UV Dyes, injection tools and inspection lamps are specialty tools available within the UV Dye range, and are supported by a full Halogen leak detector range from Robinair, CPS and our own Alcius brand.

° TOOLS AND EQUIPMENT

To complete a successful repair, the correct tools are always required. Alcius range of AC service equipment will see you through any repair that presents. A comprehensive range of refrigerant tooling, including manifolds, recovery, recycle, vacuum pumps and leak detection equipment is stocked nationally for ease of purchase. Service hose sets and accessories are available to suit all branded service equipment and replacement refrigerant hose repairs are made easy with a range of fitting crimp tools to suit all your needs.

° RECEIVER DRIERS

A globally sourced range of quality Alcius aftermarket and OE brand Receiver Driers, Sub Cool Desiccant inserts, Accumulators and Orifice tubes allow the leading technician to maintain and service any application of Air Conditioning that enters the workshop.

° TX VALVES

Direct replacement and universal TX Valves are stocked in more locations nationally to assist with completing the repair correctly. Orifice tubes, 90° valve's and block valves cover all possible applications.

° REFRIGERANT

Alcius acknowledge that refrigerant is the must stock product for AC service technicians, you can rely on Alciusto supply and keep your workshop in control of your daily service needs.
